- Game Design
- Level Design
- Documentation
- Deconstruction
- Prototyping

SECONDARY SKILLS

- 3D Modeling (in Autodesk Maya)
- 2D Art (in Photoshop)

APPLICATIONS

- Unity
- Photoshop
- Word
- Illustrator
- Excel
- PowerPoint

WORK EXPERIENCE

GAME DESIGN INTERN

Tritek Games (June 2026 – *Present*)

- Deconstruction of many Endless Runner, 4X, Tower Defence games.
- Translated the educational material for children into a playable format.
- Ideation of multiple game mechanics to retain the attention of the player.
- Market analysis and Competitive analysis.
- Prototyping different iterations of the game.

GAME JAM AND PERSONAL PROJECTS

- **SOLAR BRAWL**

Created a 2D PvP Arena Shooter in Unity 6 and published the first build within of 24 hours.

- **SUBSTANTIA VENEFICA** (Brackey's Game Jam 2026.1)

Designed and blocked out a ~30-minute level in Unity for a FPS game in the jam by collaborating in a team of 2.

- **SPATIAL LAUNCH**

Designed the levels, mechanics and particle effects for a 2D racing game in Unity, as a personal project in Second-Year of College. It was built within a week.
